

David Brennan

Director Telehealth Initiatives MedStar Institute for Innovation

David Brennan is Director of Telehealth Initiatives for the MedStar Health Institute for Innovation, where he leads efforts to catalyze clinical and research activities focused on connected health and remote service delivery models. He has been actively involved in telemedicine and healthcare innovation for close to 20 years, serving as primary investigator on research and development projects funded by the National Institutes of Health and the United States Departments of Defense and Education.

In addition to participation on local and regional telehealth task forces, Mr. Brennan is a member of the American Telemedicine Association's Practice Guidelines Committee. He received his Bachelor's and Master's degrees in biomedical engineering from the Catholic University of America, in Washington D.C., where he has served as adjunct faculty member and graduate student advisor.

Kathy Hsu Wibberly, Ph.D.

***Director Mid-Atlantic Telehealth Resource Center
University of Virginia Telehealth Resource Center***

Kathy Hsu Wibberly is Director of the Mid-Atlantic Telehealth Resource Center (MATRC). TRCs are federally funded to assist with telehealth program development and sustainability in order to increase access to quality care for rural and other underserved populations. Dr. Wibberly is also Assistant Professor of Public Health Sciences at the University of Virginia (UVA) School of Medicine, faculty member at the Healthy Appalachia Institute, and adjunct faculty member in the L. Douglas Wilder School of Government and Public Affairs at Virginia Commonwealth University (VCU).

Prior to her position with the MATRC, Dr. Wibberly was Director of the Division of Primary Care and Rural Health in the Virginia Department of Health (VDH) Office of Minority Health and Health Equity (OMHHE). The OMHHE serves as the State Office of Rural Health, Primary Care Office, and Office of Minority Health for Virginia. Her public service career reflects over 20 years of experience in public health, public policy, program development, program evaluation, and strategic planning.

Dr. Wibberly received her B.A. in Psychology with minors in pre-medicine and youth services from Gordon College in Wenham, Massachusetts. She went on to receive her M.S. and Ph.D. in Counseling Psychology from VCU in Richmond, Virginia. She also has a Certificate from the Management Academy for Public Health at UNC Chapel Hill.

Harrison Tyner

President & CEO, WeCounsel Solutions, LLC

Harrison Tyner is the Founder and CEO of WeCounsel Solutions, LLC, a behavioral telehealth company head-quartered in Chattanooga, Tennessee. He started the company in 2012 after seeing first-hand the extreme issue of lack of access to behavioral healthcare in the United States. WeCounsel's mission is to increase access to behavioral health services through technology enabled engagement tools, like video conferencing.

Mr. Tyner has a B.S. in finance and logistics from the University of South Carolina and five years of experience in SaaS business, healthcare, and telehealth. Above all, he has a passion for entrepreneurship and startups that make a positive difference in the world.

Scott Baker

Business Innovations Manager InSight Telepsychiatry

Scott Baker, MBA works to expand access to behavioral health care by building relationships with partners in new geographic and programmatic areas. In this role, Mr. Baker works closely with insurance payers, healthcare service organizations, managed care companies, EAPs, and other organizations to develop successful telebehavioral health programs and partnerships.

Mr. Baker has worked in the telebehavioral health space since 2011 and focuses his attention on identifying and innovating the latest opportunities for expanding access to care. He frequently shares telebehavioral health best practices at speaking engagements throughout the United States.

Alan H. Dinesman, M.D.

***Medical Officer
Office of Disability and Medical Assessment
U.S. Department of Veterans Affairs***

Alan H. Dinesman graduated from the University of Texas Health Science Center, San Antonio, Texas with a medical degree in 1980, followed by completion of an Otolaryngology (Ear, Nose and Throat) residency in May 1989. He is Board Certified by the American Board of Otolaryngology, Head and Neck Surgery (October 1989) and received a Fellowship Certification from the American Academy of Otolaryngic Allergy in August 1993. He entered Ear, Nose and Throat private practice in Albuquerque, New Mexico as a solo practitioner in 1989 and then formed a single specialty medical group in 1994. In the summer of 1997, he returned to San Antonio, Texas at South Texas ENT Consultants, P.A. and later became a partner.

In August 2008, Dr. Dinesman joined the Compensation and Pension Program at the VA Medical Center in San Antonio, Texas. In 2009, he became the Section Chief for the program and in 2010 moved the Compensation and Pension program to its own service under the Chief of Staff of the VA Medical Center. Although still physically stationed in San Antonio, Texas, he moved to the Office of Disability and Medical Assessment at the VA Central Office in Washington, D.C., and continues in that position to date. His current responsibilities include working with disability examination policies, process improvement, communication, and assisting with development of technologies, including Disability Benefits Questionnaires and education of the Compensation and Pension field.
