NOTE: Data are based on preliminary estimates.

- State designation based primarily on employee end-of-year residence, obtained from employer wage reports filed via magnetic media. State designation based on location of employer for reports filed via paper.
- Workers with earnings in both wage and salary employment and self-employment are counted in each type of employment but only once in the total. National and state totals and subtotals are unduplicated counts of workers in each type of employment.
- Annual maximum taxable earnings for Social Security (OASDI) from a single employer or from self-employment were \$90,000 in 2005.
- For 2005 earnings, paid at the rate of 6.2 percent of taxable wages by both employees and employers, 6.2 percent of taxable tips by employees, and 12.4 percent of self-employment income by self-employed workers. Data are unadjusted for multi-employer tax refunds.
- Persons employed in American Samoa, Guam, Northern Mariana Islands, and Virgin Islands; U.S. citizens employed abroad by U.S. employers; persons employed on U.S. oceanborne vessels; and workers with unknown residence.
