NOTES: Measurement of the use of services represents those persons receiving a reimbursed service under the original (or fee-for-service) Medicare plan. Amount reimbursed represents payments recorded on fee-for-service claims only and excludes nonbilling reimbursements, such as end-of-year cost settlements and premiums paid to managed care plans. For all years, total enrollment as of July 1 in the original (or fee-for-service) Medicare program as well as those enrolled in alternative prepaid plans, such as Medicare managed care, are shown. Beginning in 2000, data for the original fee-for-service enrollment population are shown separately, as they provide a more accurate population for denominators for computing persons served per 1,000 enrollees and average fee-for-service reimbursement per enrollee.

Characterizations of persons enrolled and persons served may differ slightly from those in other tables in this section because of differences in sources and methodology.

-- = not available.

- a. Does not reflect beneficiaries who received covered services, but for whom no program payments were reported. Totals by type of service do not equal the sum of components because one beneficiary may have used several types of services.
- b. The Balanced Budget Act of 1997, enacted on August 5, 1997, specified that, effective January 1998, coverage for the majority of home health services not associated with a hospital or skilled nursing facility will be transferred from the Hospital Insurance (HI) program to the Supplementary Medical Insurance (SMI) program. The HI program will cover the first 100 home health agency visits following a hospital or skilled nursing facility stay of at least 3 days. From July 1981 to December 1997, home health agency services were almost exclusively provided by the HI program. For more information, refer to the 1998 HI and SMI trust fund reports.

NOTES: Measurement of the use of services represents those persons receiving a reimbursed service under the original (or fee-for-service) Medicare plan. Amount reimbursed represents payments recorded on fee-for-service claims only and excludes nonbilling reimbursements, such as end-of-year cost settlements and premiums paid to managed care plans. For all years, total enrollment as of July 1 in the original (or fee-for-service) Medicare program as well as those enrolled in alternative prepaid plans, such as Medicare managed care, are shown. Beginning in 2000, data for the original fee-for-service enrollment population are shown separately, as they provide a more accurate population for denominators for computing persons served per 1,000 enrollees and average fee-for-service reimbursement per enrollee.

Characterizations of persons enrolled and persons served may differ slightly from those in other tables in this section because of differences in sources and methodology.

-- = not available.

a. Does not reflect beneficiaries who received covered services, but for whom no program payments were reported. Totals by type of service do not equal the sum of components because one beneficiary may have used several types of services.

b. The Balanced Budget Act of 1997, enacted on August 5, 1997, specified that, effective January 1998, coverage for the majority of home health services not associated with a hospital or skilled nursing facility will be transferred from the Hospital Insurance (HI) program to the Supplementary Medical Insurance (SMI) program. The HI program will cover the first 100 home health agency visits following a hospital or skilled nursing facility stay of at least 3 days. From July 1981 to December 1997, home health agency services were almost exclusively provided by the HI program. For more information, refer to the 1998 HI and SMI trust fund reports.

c. Sample population too small to yield valid calculated results.

SOURCE: Centers for Medicare & Medicaid Services.

NOTES: Medicare program payments represent fee-for-service only and exclude amounts paid for managed care services. Swing-bed hospital services are included in the total use and cost of Medicare skilled nursing facility services.

Totals do not necessarily equal the sum of rounded components.

a. Includes skilled nursing facility admissions with at least one day of covered care under Medicare.

b. The denominator used to calculate the average program payment per covered admission includes only those bills with Medicare reimbursement greater than zero.

c. Includes unknown residence.

- a. Individuals are automatically eligible for the full low-income subsidy (LIS) if they are dually eligible for Medicare and Medicaid benefits, enrolled in a Medicare savings program, or receiving Supplemental Security Income.
- b. Individuals not automatically eligible for full LIS must apply for LIS coverage. Applicants may be found eligible for full or partial LIS, depending on their income and resources.
- c. RDS provides a Medicare subsidy to employers and unions who continue assisting their Medicare-eligible retirees with prescription drug coverage.
- d. Creditable coverage is alternative prescription drug coverage in which the actuarial value of the coverage equals or exceeds the actuarial value of standard Medicare prescription drug coverage.
- e. Includes unknown residence.
