V. Changes in Board Membership or Structure

Due to staffing changes since last year’s report, the agency has the following two new DIB members:

- (1) Terri Daniel replaced Mitch Chitwood, and is Acting Associate General Counsel for General Law, Office of the General Counsel; and
- (2) Michelle Christ replaced Mary Ann Zimmerman, and is Deputy Executive Director

Office of Privacy and Disclosure.

VI. Disapproved Matching Agreements

SSA's DIB did not disapprove any matching agreement during calendar year 2022.

VII. Matching Agreement Violations

SSA did not have any violations of a matching agreement during calendar year 2022.

VIII. Cost-Benefit Requirements

A. Cost-Benefit Ratio

While SSA's DIB ordinarily needs a favorable cost benefit ratio before proceeding with any matching programs, SSA did proceed with three agreements having an unfavorable or unmeasurable cost-benefit analysis as explained below:

- Match 1003 – Department of Labor (DOL) Black Lung Part C Benefit Payments:

Section 224(h)(1) of the Social Security Act, (42 U.S.C. § 424a(h)(1)) mandates any Federal agency to provide SSA with information in its possession that SSA may need for making a timely determination of the amount of reduction required under section 224 of the Act for workers' compensation offset.

Due to the Covid-19 pandemic, SSA temporarily suspended processing and collection of some overpayments and adverse action workloads. As a result, the agency realized lower savings from retroactive overpayment development and recovery, and adjustment of benefit payment amounts to prevent future improper payments. Moreover, the costs to SSA to perform the matches and development work in the field offices increased. Despite the temporary net result being in the negative cost-benefit ratio, this CMA is normally positive and SSA considers it a valuable program integrity tool that mitigates improper payments.

Therefore, SSA's DIB continues to recommend the continuation of this matching program.

- Match 1097 with the Department of Health and Human Services, Centers for Medicare and Medicaid Services (CMS):

Section 1413 of the Patient Protection and Affordable Care Act (PPACA) mandates the use of a matching program to provide for the streamlined application process required by Congress. As a result, this matching program supports accurate eligibility determinations that help avoid improper payments, but there is no data available to quantify the number of improper payments avoided. This is a situation where the match results are not currently used to identify or recover past improper payments. As such, there are no estimates (i.e., unmeasurable) of avoided or recovered improper payments in the Cost-Benefit Analysis (CBA) to offset against the costs.

Therefore, SSA's DIB continues to recommend the continuation of this matching program.

- Match 1309 with the Department of Veterans Affairs (VA), Veterans Benefits Administration (VBA):

Section 1144 of the Social Security Act mandates SSA to conduct outreach efforts for the Medicare Savings Programs and subsidized Medicare prescription drug coverage. SSA and VA both determined that a computer matching program is the most efficient means for SSA to obtain and process the income and resource information from VA to verify self-certified income and resource information.

Therefore, SSA's DIB continues to recommend the continuation of this matching program.

B. Waiver of Cost-Benefit Analysis (CBA)

SSA's DIB granted the following agreements a waiver to the usual cost-benefit analysis requirement pursuant to 5 U.S.C. § 552a(u)(4)(B):

- Match 1007 with the Railroad Retirement Board (RRB)

HHS/SSA and RRB DIBs granted this waiver in 1992 when SSA was part of the Department of Health and Human Services. The match assures the effective administration of the two benefit programs. The information SSA provides to RRB is not available from other sources, so a CBA is not a factor in determining whether this exchange occurs. Therefore, SSA's DIB continues to recommend the continuation of this matching program and waiving the CBA.

- Matches 6000 and 6003 for State/State Agency Model Agreements for State Data Exchange

The waiver for these matches began in March 2008 and continues to the present. The matches assure the effective administration of state benefit programs. The information SSA provides to state agencies is not available from other sources, so a CBA is not a factor in determining whether this exchange occurs. Therefore, SSA's DIB continues to recommend the continuation of this matching program and waiving the CBA.

IX. Adherence to Terms

SSA fully adhered to the terms of each agreement during 2022.

X. Justification

SSA was justified in disclosing SSA records used in its matching programs during 2022.
